AND ALTERATION OF TOWN BUILDINGS AND STRUCTURES

SECTION 3.7.1 **APPOINTMENT OF MEMBERS**

The Selectmen shall appoint five citizens to serve as members of the Building Commission (the Commission), which shall have charge and direction of the construction, repair and alteration of all town buildings and all buildings and structures placed on town land. The members of said Commission shall hold office from the 1st of September following his or her appointment for three year staggered terms, and until a successor is appointed. Commission appointments shall be made to preserve three year staggered terms, with two members appointed one year, two members appointed the following year and one member appointed the third year. They shall serve without compensation. The Commission shall comprise a registered architect, a registered engineer, a licensed builder, and two other citizens. With respect to the selection of an architect, engineer, or other consultant (the consultant) for building projects, the Commission shall by regulation, adopt procedures, by regulation which conform to the requirements of the laws of Massachusetts.

SECTION 3.7.2 **PROJECT PROCEDURES**

Any town board, commission, or other agency intending to seek funds for the construction, alteration or repair of a town building or structure (a project) shall notify the Commission of its intention to do so. The town agency for whose use the building is proposed is hereinafter referred to as the Using Agency. Upon receipt of such notice from the Using Agency, the Building Commission shall decide whether or not the project shall be carried out in its charge. If the Commission declines to take charge of the project, the Using Agency may, subject to the Selectmen's approval and the appropriation of funds, carry out the project in its charge without regard to the following provisions of this Article. If the Commission decides to take charge, the Using Agency may appeal its decision to the Board of Selectmen, which shall make the final decision on the matter. In deciding whether or not the Commission

shall take charge of the project, the Commission, and the Board of Selectmen if appealed to, shall consider the size, cost, and complexity of the project and the personnel and experience of the Using Agency; it being the intent hereof that all but those projects clearly within the competence of the Using Agency to administer, will be placed in the Commission's charge. Any project in the Commission's charge shall be carried out in the following steps unless waived by the Selectmen as hereinafter provided:

(a) Step 1: The Using Agency shall formulate a program in writing for the facility which shall include, but shall not be limited to, the function and needs which it is designed to fulfill, expanded services, auxiliary public use, additional personnel required to maintain the facility, annual maintenance costs, expected hours of the facility's availability, environmental and sustainability goals and objectives, and overall effect on the town all as appropriate for the project's scope and budget. Environmental and sustainability goals and objectives include design and construction practices that explicitly consider Green technologies, site selection, waste minimization, energy efficiency, water conservation, indoor environmental quality, and other environmental and health factors that may provide financial, environmental, and occupant health and productivity benefits. In formulating such a program, the Using Agency, after consultation with the Commission and other agencies or authorities of the town having an interest in the use or development of the facility, shall prepare tentative size and cost requirements of the facility to accommodate such a program. Upon receipt of the program prepared by the Using Agency, the Commission shall decide if the town should hire a consultant for the work described in Step 2. If it decides against engaging such a consultant, it will, with the approval of the Board of Selectmen and after an appropriation has been authorized by the town meeting, proceed with the project, and without regard to the following provisions of this Section. If the Commission decides to engage such consultant, the Commission shall proceed to Step 2.

(b) Step 2: The Commission shall notify the Using Agency of its decision to engage a consultant. The Using Agency shall request that the town meeting appropriate funds for the purpose of compensating a consultant for the preparation of a feasibility study for the project,

schematic design studies for the project, a cost estimate for the project (including life-cycle costs), and any special studies which the Commission and the Using Agency jointly recommend. The work of the consultant shall consider the investigation, cost-benefit analysis, and recommendation of appropriate options that address the environmental and sustainability goals and objectives outlined in paragraph (a) above. Upon the appropriation of such funds, the consultant shall be selected in accordance with Step 3.

(c) Step 3: The Selectmen shall appoint a committee of seven members (the "Committee"), of whom three shall be designated by and be members of the Commission and three shall be designated by and be members of the Using Agency. One member shall be designated by the Selectmen, who shall serve as Chairman. The Committee shall meet promptly after it is appointed and proceed with the selection of a consultant in accordance with the procedures adopted by the Commission under Section 1 of this Article. Having made its selection in accordance with such procedures, the Committee shall report its selection to the Commission, the Using Agency, and the Selectmen; and the Selectmen shall thereupon discharge the Committee. The Commission shall then negotiate, on the town's behalf, a contract with the selected consultant, which shall be divided into three discrete phases of work: the first phase shall include those services for which the town meeting appropriated funds under step 2; the second phase shall include services necessary or appropriate to develop the design of the project to the point where bids can be received for the construction of the project; and the third phase shall include the administration of the construction contract. The contract shall provide for termination at will by the town at the end of each of the phases and shall provide that the parties will not proceed to the second phase or third phase without further appropriations by town meeting, as described in Step 4 and Step 5. The contract shall be subject to the Selectmen's approval.

(d) Step 4: When the first phase of work has been completed and approved by the Using Agency, the Commission shall present the consultant's report to the town meeting. On the basis of the consultant's report, the Using Agency may request that the town meeting appropriate funds necessary to compensate the consultant for the second phase under the consultant's contract. Alternatively, the

Commission or the Using Agency may recommend that the contract be terminated and that a new consultant be appointed to carry the work forward. In the latter case, the new consultant shall be selected in accordance with the procedures set forth in step 3.

(e) Step 5: When the second phase of work has been completed and approved by the Using Agency, the Commission shall, on behalf of the town, submit the project as designed to bid in accordance with all applicable statutes and other requirements. Upon receipt of bids, the Commission, in consultation with the Using Agency, shall decide whether they are acceptable to it. If such bids are acceptable to the Commission and the Using Agency, the Using Agency shall then request that the town meeting appropriate funds for the construction of the project and to compensate the consultant under the third phase of the consultant's contract. The Using Agency shall at the same time request the appropriation of funds for equipping and furnishing the project, providing the town meeting with a detailed estimate for such furniture and equipment, and funds for any other additional expenses to the town estimated to be incurred when the facility becomes operational.

SECTION 3.7.3 CONTRACTS

The contracts for construction of a project shall be executed on behalf of the town by the Commission, with the approval of the Selectmen. All expenditures made under this Article shall be made by the Commission with the approval of the Selectmen.

SECTION 3.7.4 WAIVERS

The Selectmen, if they deem it to be in the best interest of the Town, may, for any project with an estimated cost of less than \$500,000.00 or mandated by either the State or Federal Government, waive or consolidate any or all of the steps set forth in Section 3.7.2., with the exception of Step 5. Only Town Meeting may waive its rights in Step 5. If the Selectmen elect to waive the appointment of the Committee, as described in Step 3, the Commission shall select the architect, engineer, or other consultant, with the approval of the Using Agency, in accordance with the procedures adopted by it under Section 3.7.1. Town Meeting

may, by a two-thirds vote, waive any or all of the requirements in Step 1, Step 2, Step 3 or Step 4.

SECTION 5.1.5 DIRECT CONNECTION TO POLICE DEPARTMENT

- (a) All alarms must be authorized by the Police Chief prior to being connected to the police department.
- (b) In accordance with the normal practices in effect in the town, the Police Chief shall have the authority to request bids or proposals from alarm companies in order to furnish, at no cost to the town, a communications console and the necessary telephone lines which are compatible to the receipt of alarm signals from alarm systems whose lines are connected to the police department. Each of the said bids shall set forth the annual fee each alarm user will be required to pay the alarm company for services rendered with respect to the communications console, except that no fee shall be assessed to the municipality for any alarms or connections to the console from properties owned by the municipality.

The names, addresses and telephone numbers of the responders must be kept current at all times by the alarm user and the alarm company.
- (b) All alarm systems directly connected to the Police station shall be equipped with a test device which will give a ten-second delay or longer prior to alarm system activation in order to warn the alarm user of an open alarm circuit.
- (c) Any alarm system emitting a continuous and uninterrupted signal for more than fifteen (15) minutes which cannot be shut off or otherwise curtailed due to the absence or unavailability of the alarm user or those persons designated by him under paragraph (a) of this section, and which disturbs the peace, comfort or repose of a community, or a neighborhood of the area where the alarm system is located, shall constitute a public nuisance. Upon receiving complaints regarding such a continuous and uninterrupted signal, the Police Chief shall endeavor to contact the alarm user under paragraph (a) of this section in an effort to abate the nuisance. The Police Chief shall cause to record the names and

addresses of all complainants and the time each complaint was received.

In the event that the Police Chief is unable to contact the alarm user, or member of the alarm user's family, or those persons designated by the alarm user under paragraph (a) of this section, or if the aforesaid persons cannot or will not curtail the audible signal being emitted by the alarm system, and if the Police Chief is otherwise unable to abate the nuisance, he may direct a police officer or a firefighter or a qualified alarm technician to enter upon the property outside the home or building in which the alarm system is located and take any reasonable action necessary to abate the nuisance.

If entry upon property outside the home or building in which the alarm system is located is made in accordance with this section, the person so entering upon such property 1) shall not conduct, engage in, or undertake any search, seizure, inspection or investigation while he is upon the property; 2) shall not cause any unnecessary damage to the alarm system or to any part of the home or building; and 3) shall leave the property immediately after the audible signal has ceased. After an entry upon property has been made in accordance with this section, the Police Chief shall have the property secured, if necessary. The reasonable costs and expenses of abating a nuisance in accordance with this section may be assessed to the alarm user, said assessment not to exceed \$50.00.

Within ten (10) days after abatement of a nuisance in accordance with this section the alarm user may request a hearing before the Selectmen and may present evidence showing that the signal emitted by this alarm system was not a public nuisance at the time of the abatement; that unnecessary damage was caused to his property in the course of the abatement; that the costs of the abatement should not be assessed to him; or the requirements of this section were not fulfilled. The Selectmen shall hear all interested parties and may, in its discretion, reimburse the alarm user for the repairs to this property necessitated by the abatement, or excuse the alarm user from paying the costs of abatement.

- (d) Effective July 1, 1992, all alarm systems shall be equipped with a built-in, recycle, cut-off, timer. This timer shall be adjusted so that any audible emissions, flashing lights, or beacons designed to signal to persons outside the premises shall cease such alarm function after fifteen (15) minutes of operation.

5.10.3. DISTRICTS AND GUIDELINES

a. A Neighborhood Conservation District shall encompass a geographically defined area that, at the time of its establishment, is located in its entirety within one or more residence districts as defined in section 3.01.1 of the Zoning Bylaw. Additional NCDs may be added by majority vote of Town Meeting and each such NCD and the design guidelines for such NCD shall be set forth in part d of this Section 5.10.3, as it may be amended. The boundaries of each NCD shall be set forth on a map on file with the Town Clerk. The NCD Commission, Town Counsel or Town Clerk shall, in addition, promptly present a copy of the map and applicable by-law for filing in the Norfolk County Registry of Deeds.

b. The design of each Reviewable Project in a Neighborhood

Conservation District shall be subject to the particular design guidelines set forth in this Section 5.10.3 for such district.

c. The Commission may impose dimensional requirements that further the purposes of this by-law, including without limitation preventing Reviewable Projects inconsistent with the historic or architectural aspects, scale or massing, neighborhood or subdivision plan or layout, circulation patterns, or green space, open space, landscape, vegetation or viewshed character of the NCD.

d. Specific districts and guidelines.

1. There shall be a Neighborhood Conservation District, to be entitled the "Hancock Village Neighborhood Conservation District", the boundaries of which are shown on the map entitled "Hancock Village Neighborhood Conservation District", a copy of which is on file with the Town Clerk's office, which is hereby declared to be part of this By-law.

The first and largest garden city apartment complex in Brookline, Hancock Village (1946-1949) is significant as a far-sighted, historically important collaboration between the town of Brookline and the Boston-based John Hancock Mutual Life Insurance Company to provide both employment and housing for returning World War II veterans. The development, which straddles the Brookline-Boston line, consists of 789 two-story attached townhouses, most of which are located in Brookline. In consideration of a zoning change by the Town which allowed the development to proceed, the development was designed and built as a high-quality development in the "garden village" style, meaning that each dwelling unit had a separate entrance to the exterior; the units were town-homes of two stories with peaked roofs; there was substantial open space; and there was a "greenbelt" serving as a buffer between the development and adjacent single-family homes. Such elements were embodied in commitments made on behalf of John Hancock Insurance by its president Paul F. Clark, including an agreement with the Town of Brookline executed March 11, 1946. The landscape design was by Olmsted Associates, a Brookline firm with international experience and reputation. Significantly, Hancock Village remains the quality housing development conceived in those commitments and original design, and therefore remains internally coherent in design and compatible in scale, siting and

impact with the adjacent neighborhood of single-family homes and with the D. Blakely Hoar Wildlife Sanctuary, especially due to the retention in Hancock Village of open lawns, courtyards and common areas, pedestrian paths, consistent town-house style buildings of modest scale, unobstructed sky planes, buffer zones, and significant landscape features such as puddingstone outcrops. Retaining integrity of location, design, setting, materials, workmanship, feeling, and association, the Hancock Village Neighborhood has as such remained an important historic property in Brookline and a compatible part of the fabric of the community and the adjacent neighborhood.

The Hancock Village Neighborhood Conservation District shall be governed by the following design guidelines. Any further development shall be compatible with the existing development of the district and its relationship to the adjacent neighborhood:

- i. Architectural style and character. The architectural design and building materials of any proposed Reviewable Project shall be compatible with the existing garden-village town-house architecture within the district, with, for example, each dwelling unit having a separate entrance to the exterior.
- ii. Building size, height and massing. The size, height and massing of a building or other structure which is part of any proposed Reviewable Project shall be compatible with existing buildings and other structures within the district and the adjacent neighborhood, and the elements considered shall include but not be limited to the volume and dimensions of any buildings or other structure; the scale, clustering and massing of any building or other structure in relation to its surroundings, including existing buildings and other structures and nearby landscape and other open spaces; and compatibility of design and materials with existing buildings and other structures. Compatible building size, height and massing shall include, not be limited to:
 - a. No building over 2 ½ stories in height, measured from the highest point of the finished grade of each unit, shall be constructed.
 - b. In relation to any abutting single-family, detached

homes, any new single-family homes shall be similarly oriented, have similar rear yard depths, and similar distance between dwelling units.

- iii. Façade. The number, size and location and design of windows, doors and solid elements, trim work, piers, pilasters, soffits, cornices, decks, porches and canopies, and the design of window and door details, including trim, muntins, mullion and sills, need not replicate but shall be compatible with the existing buildings within the district. Alterations necessary for handicap accessibility shall be compatible to the extent reasonably feasible.
- iv. Roof treatment. The shape, pitch, style, and type of surfacing of roof areas shall be compatible with those of buildings within the district. Including buildings in any Reviewable Project, buildings with flat or approximately flat roofs will not exceed 25% of the total number of buildings in the entire NCD.
- v. Streetscape, topography and landscape. Any proposed Reviewable Project (including demolition, removal, new construction or other alteration) shall maintain the spatial organization of the district and shall not have a significant negative impact on historic architectural or landscape elements, including structures, open spaces, green spaces, topography, walls and fences, circulation patterns including pedestrian circulation separated from vehicular traffic, viewsheds, park areas, play areas, courtyards and other landscaped areas previously accessible and usable in common, significant trees as defined in this by-law, and buffer areas. The existing spatial organization and land patterns of the landscape shall be preserved, including the curvilinear circulation patterns and views from roads, sidewalks, pathways and buildings. Significant negative impacts shall include, but not be limited to:
 - a. Removal or alteration of rock outcroppings greater than 200 square feet in contiguous area;
 - b. Alteration of existing grades by more than three feet in vertical height;
 - c. Removal of existing pedestrian paths that separate

pedestrians from vehicular traffic;

- d. Addition of new impervious surfaces within 100 feet of abutting properties, including the Hoar Sanctuary or single-family homes; and
- e. Loss of open space through building coverage exceeding 20% of the area of the district or through loss of the "greenbelt" now serving as a buffer to the abutting single-family detached homes.

Nothing in this Section 5.10.3.d.1 shall be construed as repealing or modifying any existing by-law or regulation of the Town, but it shall be in addition thereto. To the extent this Section 5.10.3.d.1 imposes greater restrictions upon a Reviewable Project than other by-laws, regulations or statutes, such greater restrictions shall prevail. The provisions of this Section 5.10.3.d.1 shall be deemed to be severable. If any of its provisions, subsections, sentences or clauses shall be held to be invalid or unconstitutional, the remainder shall continue to be in full force and effect.

5.10.4. NEIGHBORHOOD CONSERVATION DISTRICT OVERSIGHT

a. Each Neighborhood Conservation District shall be overseen by a Neighborhood Conservation District Commission consisting of no less than five members, which shall not preclude overlapping membership in whole or in part between commissions for various NCDs if appropriate to provide consistency, continuity, economy or other benefits in NCD administration Town-wide. If deemed appropriate by the Board of Selectmen for the administration of a specific NCD after consultation with the chair of the Brookline Preservation Commission, the size of an NCD Commission may be increased to seven members and the specific membership shall be determined within the limits set forth below. In the case of a five-member NCD Commission, up to three members but no less than one member shall be representatives of the Brookline Preservation Commission as described in Section 5.6.4 of the Town By-laws, and the remaining members (and their alternates) shall be appointed by the Board of Selectmen. In the case of a seven-member NCD Commission, up to four members but no less than one member shall be representatives of the Brookline Preservation Commission and the remaining (and their alternates) shall be appointed by the Board of

Selectmen. The member or members of an NCD Commission representing the Preservation Commission may be either regular or alternate members of the Preservation Commission, and shall be designated by the chair of the Preservation Commission to serve on a particular NCD Commission. The Selectmen's appointees shall be residents of the Town and may be, as appropriate, individuals such as members of other Boards and Commissions, residents and/or property owners within the NCD, residents of abutting areas, or residents of the Town with additional expertise in the issues specific to a particular NCD, such as architecture, historic landscape preservation, landscape architecture, agriculture, horticulture or forestry, urban planning or history. Such Selectmen's appointees (including alternates) shall initially be appointed to one-, two-, or three-year terms so as to minimize the number of terms that expire in the same year, and at the expiration of the initial terms, appointments shall be for three-years. Each NCD Commission shall elect a chair and vice-chair from within its own number, and a clerk from within or without its own number. In the absence of an NCD Commission member representing the Preservation Commission, the NCD Commission chair may appoint any regular or alternate Preservation Commission Member to act for that absent member. In the absence of an NCD Commission member appointed by the Selectmen, the NCD Commission chair may appoint any alternate appointed by the Selectmen to act for that absent member. Prior to the appointment by the Selectmen of the Selectmen-appointed NCD Commission members or alternates or in the event of the unavailability of such Selectmen's appointees, those positions shall be filled on an interim basis by regular or alternate members of the Preservation Commission appointed by the chair of the Preservation Commission, so that an NCD at all times has the requisite number of five (or seven, if applicable) members.

The Commission for each NCD shall exercise its powers in administering and regulating the alteration of buildings, other structures and natural and manmade elements within such NCD as set forth under the procedures and criteria established in this by-law.

The Commission for each NCD shall review all Reviewable Projects in the NCD, including without limitation new construction, demolition or alterations that affect the landscape or topography, the exterior architectural features of buildings and other structures, or the mass and siting of buildings and other structures. The authority of the

Commission shall be binding except with regard to the categories of structural, landscape or architectural features exempted by Section 5.10.6 or that may be otherwise exempted by the particular design guidelines for a specific district set forth in Section 5.10.3 of this by-law.

An NCD Commission, or the Town on behalf of any such commissions, may receive and accept appropriations, grants and gifts to further the purposes of this by-law. An NCD Commission, or the Town on behalf of any such commissions, is also authorized to the extent permissible by law to require the collection of funds as part of an application to be placed in a separate account. These funds may be used to fund Town review of a Reviewable Project, including the retention of consultants or the funding of staff required to complete review of an application.

b. An NCD Commission, after a public hearing duly noticed at least 14 days in advance, may adopt, and from time to time amend, reasonable rules and regulations not inconsistent with the provisions of this by-law or other by-laws governing the Commission. Such rules and regulations shall set forth such forms and procedures as it deems desirable and necessary for the regulation of its affairs and the conduct of its business, including requirements for the contents and form of applications for certificates, the process for collecting and utilizing funds including without limitation application fees and funds required to fund Town review, hearing procedures and other matters. Such rules and regulations may also include a set of design review standards, not inconsistent with the applicable design guidelines and exemptions contained herein under Sections 5.10.3 and 5.10.6, to refine and clarify the application of the design guidelines during the design review process. The NCD Commissions for various NCDs within the Town may adopt common rules and regulations for the conduct of their business, consistent with the specific design guidelines applicable to each NCD, including coordinating or integrating procedures for review of applications. The Commission promulgating any such rules and regulations shall file a copy thereof with the office of the Town Clerk.

5.10.5. PROJECTS PROHIBITED WITHOUT A CERTIFICATE

Except as this by-law provides, no building, other structure, site, property or part thereof within a Neighborhood Conservation District shall be altered (which

term includes complete or partial demolition and new construction) and no other Reviewable Project may proceed unless the Commission shall first have issued a Certificate of Appropriateness. A building permit (which shall include permits for demolition) or an occupancy permit may not be issued for an altered building, structure, site or property or other Reviewable Project without the prior issuance of a Certificate of Appropriateness.

5.10.6. ALTERATIONS EXEMPT FROM COMMISSION REVIEW

a. It shall be the responsibility of the staff of the Commission, with the concurrence of the Chair of the Commission, to determine whether a proposed alteration or other project is exempt from review and they shall have ten business days to make this determination. Any alteration or project that is exempt from review shall receive a Certificate of Exemption that will permit such alteration or project to go forward without further review under the Neighborhood Conservation District By-Law. The Commission may establish regulations to define projects that are of insufficient significance to warrant Commission review, and Commission staff may issue a Certificate of Exemption for such a project.

.

b. Nothing herein shall be deemed to limit review to features visible from a public way unless such a limitation is set forth in the particular design guidelines for a specific district set forth in Section 5.10.3.d of this by-law.

c. The following projects or portions of Reviewable Projects are exempt from Commission review in all NCD districts:

1. Temporary buildings and structures subject to time limits (no longer than 6 months) and size limits determined by the Neighborhood Conservation District Commission.
2. One-story detached accessory structures without permanent foundations used as tool and storage sheds, playhouses, and similar uses provided the floor area does not exceed 100 square feet. This exemption shall not apply to garages, parking structures or other structures for vehicular use nor to structures to shelter or visually shield HVAC

equipment.

3. Interior Alterations, including interior demolition as defined in Sections 5.3.2(h)(iii) and (iv) (such sections shall continue to be applicable to the Demolition Delay By-Law).
4. Ordinary maintenance and repair of architectural features that match the existing conditions including materials, design and dimensions.
5. Removal of substitute siding provided, however, that any replacement siding and trim shall be reviewable.
6. Reversible changes of color (such as staining or repainting of wood siding or trim, but not work such as painting of previously unpainted masonry).
7. Removal, replacement or installation of the following exterior elements (this exemption shall not apply to replacement windows which may include storms or screens):
 - a. Exterior storm windows and exterior storm doors
 - b. Exterior window screens or exterior screen doors
 - c. Gutters and downspouts
 - d. Removable window air conditioners, but not permanently installed HVAC equipment whether as part of a building or freestanding.
 - e. Satellite dishes or antennae less than 3 feet in maximum width.
8. In-kind replacement of plant material.
9. Removal of public shade trees or removal of plant material that is severely damaged or dying due to weather-related events or natural causes.
10. Reconstruction, substantially similar in exterior design, of a building, damaged or destroyed by fire, storm or other disaster, provided such reconstruction is begun within the time period specified in Section 8.03.1 of the Zoning By-Law and carried forward with due diligence.
11. Replacement windows and doors, and windows and doors installed in an addition or new construction, whether including single-pane glass or multiple-pane insulating glass, provided that (a) the exterior appearance is consistent in size, scale and detailing with that of pre-existing windows and doors on the building and adjacent buildings, as through the use of true divided lites or exterior muntins adhered to the exterior glass surface, and (b) reflective or tinted glass is not used, unless used in the pre-existing windows and doors.

5.10.7. PROCEDURES FOR REVIEW

Any Reviewable Project not exempted above requires the submittal of an application for regulatory review by the Commission. The application shall be accompanied by a filing fee as may be determined from time to time by the Board of Selectmen. As may reasonably be deemed necessary by the Commission to enable it to make its determination on the application, the application may be required to include (a) drawings and/or photographs showing existing conditions, including existing buildings and other structures, landscape features and vegetation, open spaces and pedestrian and vehicular paths, and (b) plans, elevations, specifications, photographs, descriptions of materials and other supporting information of the proposed changes.

Within forty-five business days of the submittal of a complete application, including all required supporting information, the Commission shall hold a public hearing on the application. At least fourteen days before said public hearing, public notice shall be given. Such notice shall identify the time, place and purpose of the public hearing.

At or subsequent to the public hearing, the Commission shall determine whether the proposed alteration or other Reviewable Project, including any modification thereof agreeable to the applicant, is compatible with the specific design guidelines of the applicable district and the purposes of this by-law. The Commission may waive or modify the application of a design guideline in a particular case if such waiver will not derogate the protections provided by this by-law to the neighborhood and abutters.

If the Commission determines that the alteration is compatible with the design guidelines for the district, the Commission shall issue a Certificate of Appropriateness. If deemed necessary to ensure that an alteration is compatible with the design guidelines, the Commission may attach appropriate conditions to the Certificate of Appropriateness. The concurring vote of a majority of Commission members, including voting alternates (i.e., not less than three votes for a five-member commission and not less than four votes for a seven-member commission) shall

be required to issue a Certificate of Appropriateness.

If the Commission does not determine that the alteration is compatible with the design guidelines for the district, the Commission shall deny the Certificate of Appropriateness. The Commission shall provide the applicant with the reasoning for its denial including the manner in which the alteration does not meet the applicable design guidelines in Section 5.10.3.d or the purposes of this by-law.

The Commission may further delay or totally prohibit demolition in addition to any delay provided by the Brookline Demolition Delay By-Law. In considering an application to demolish a building or structure, the Commission shall consider the architectural or historical significance of the building, including, if any, the findings of the Preservation Commission under the Demolition Delay By-Law; the siting and significance of the building or structure in relation to its surroundings and surrounding buildings either by itself or as a component as a group of buildings or structures; and the design and siting of any replacement building or structure.

5.10.8. PROCEDURES FOR ISSUANCE AND FILING OF CERTIFICATES

Each Certificate issued by the Commission shall be dated and signed by its chairperson or such other person designated by the Commission to sign such Certificates on its behalf. The Commission shall send a copy of its Certificate or denial to the applicant and shall file a copy of the Certificate or denial with the office of the Town Clerk and the Building Commissioner. The date of issuance of a Certificate or denial shall be the date of the filing of a copy of such Certificate or denial with the office of the Town Clerk.

If the Commission should fail to make a determination within sixty business days of the filing of a complete application for a Certificate including all required supporting information, or within such further time as the applicant may allow in writing, the Commission shall thereupon issue a Certificate of Appropriateness due to failure to act.

5.10.9. ENFORCEMENT AND PENALTIES

The Commission is specifically authorized to institute any and all actions, including proceedings in law and in equity, as it deems necessary and appropriate to obtain compliance with the requirements of this by-law or to prevent a threatened violation thereof.

The Commission may designate the Building Commissioner to act on its behalf and to enforce this by-law under the direction of the Commission.

Any owner of a property subject to this by-law that has altered a building or other structure or proceeded with a Reviewable Project without first obtaining a Certificate of Appropriateness in accordance with the provisions of this by-law shall be subject to a fine of not more than Three Hundred Dollars. Each day the violation exists shall constitute a separate offense until the alteration is corrected, the addition is removed, a faithful restoration of the demolished building or structure is completed, suitable replacement trees are planted, or the property is otherwise returned to its original condition unless otherwise agreed to by the Commission.

5.10.10. APPEAL PROCEDURE

Any applicant or person aggrieved by a determination of the Commission may appeal as provided for in the Massachusetts General Laws.

5.10.11. VALIDITY AND SEEVERABILITY; OTHER BY-LAWS

The provisions of this by-law shall be deemed to be severable. If any of its provisions, sections, subsections, sentences or clauses shall be held to be invalid or unconstitutional, the remainder of this by-law shall continue to be in full force and effect. Nothing in this by-law shall be construed as repealing or modifying any existing by-law or regulation of the Town, but it shall be in addition thereto. To the extent this by-law imposes greater restrictions upon a Reviewable Project than other by-laws, regulations or statutes, such greater restrictions shall prevail.

TOWN OF BROOKLINE

Article 8.15

Noise Control

ARTICLE 8.15 NOISE CONTROL

SECTION 8.15.1 SHORT TITLE

This By-law may be cited as the "Noise Control By-law of The Town of Brookline".

SECTION 8.15.2 DECLARATION OF FINDINGS, POLICY AND SCOPE

- (a) Whereas excessive Noise is a serious hazard to the public health and welfare, safety, and the quality of life; and whereas a substantial body of science and technology exists by which excessive Noise may be substantially abated; and whereas the people have a right to and should be ensured an environment free from excessive Noise that may jeopardize their health or welfare or safety or degrade the quality of life; now, therefore, it is the policy of the Town of Brookline to prevent excessive Noise which may jeopardize the health and welfare or safety of its citizens or degrade the quality of life.

(b) Scope.

This By-law shall apply to the control of all sound originating within the limits of the Town of Brookline.

1. Provisions in this By-law shall not apply to the emission of sound for the purpose of alerting persons to the existence of an emergency or to the emission of sound in the performance of emergency work or in training exercises related to emergency activities, and in the performance of public safety activities.
2. Emergency generators used for power outages or testing are exempt from this By-law. However, generator testing must be done during daylight hours.
3. Noncommercial public speaking and public assembly activities as guaranteed by state and federal constitutions shall be exempt from the operation of this By-law.

SECTION 8.15.3 DEFINITIONS

- (a) Ambient or Background Noise Level: Is the term used to describe the Noise measured in the absence of the Noise under investigation. It shall be calculated using the average lowest sound pressure level measured over a period of not less than five minutes using a sound pressure level meter set for slow response on the "A" weighting filter in a specific area of the town under investigation.

(b) Construction and Demolition: Any site preparation, assembly erection, substantial repair, alteration, destruction or similar action for public or private rights-of-way, structures, utilities, or similar property.

(c) Day: 7:01 AM - 10:59 PM and Night: 11:00 PM – 7:00 AM

(d) Electronic Devices: Any radio, tape recorder, television, CD, stereo, public address system, loud speaker, amplified musical instrument including a hand held device, and any other electronic noise producing equipment.

Exemption: two-way communication radios used for emergency, safety and public works requirements.

(e) Emergencies: Any occurrence or set of circumstances necessary to restore, preserve, protect or save lives or property from imminent danger of loss or harm.

(f) Decibels (dB): The decibel is used to measure sound pressure level. The dB is a logarithmic unit used to describe a ratio of sound pressure, loudness, power, voltage and several other things.

(g) Decibels “A” weighted scale (dBA): The most widely used sound level filter is the “A” weighted scale. This filter simulates the average human hearing profile. Using the “A” weighted scale, the meter is less sensitive to very low and high frequencies.

(h) Decibels “C” weighted scale (dBC): The “C” filter uses little filtering and has nearly a flat frequency response (equal magnitude of frequencies) throughout the audio range.

(i) Fixed Plant Equipment: Any equipment such as generators, air conditioners, compressors, engines, pumps, refrigeration units, fans, boilers, heat pumps and similar equipment.

(j) Frequency response: Is the measure of any system’s response at the output to a signal of varying frequency but constant amplitude at its input. The theoretical frequency range for humans is 20 - 20,000 cycles/second (Hz).

(k) Hertz (Hz): Cycles per Second (cps).

(l) Loudness: A rise of 10dB in sound pressure level corresponds approximately to doubling of subjective loudness. That is, a sound of 65dB is twice as loud as a sound of 55dB.

(m) Leaf blowers: Any portable machine used to blow leaves, dirt and other debris off lawns, sidewalks, driveways, and other horizontal surfaces.

(n) Noise: Sound which a listener does not wish to hear and is under investigation that may exceed the Noise requirements located in this Noise By-law.

(o) Noise Injury: Any sound that:

- (1) endangers the safety of, or could cause injury to the health of humans; or
- (2) endangers or injures personal or real property.

(p) Noise Level: The Sound Pressure Level measurements shall be made with a Type I or II sound level meter as specified under American National Standard Institute (ANSI) standards.

(q) Noise Pollution: If a Noise source increases Noise levels 10 dBA or more above the Background Noise Level, it shall be judged that a condition of Noise Pollution exists. However, if the Noise source is judged by ear to have a tonal sound, an increase of 5 dBA above Background Noise Level is sufficient to cause Noise Pollution.

(r) Person: Any individual, company, occupant, real property owner, or agent in control of real property.

(t) Sound: A fluctuation of air pressure which is propagated as a wave through air.

(u) Sound Level Meter: An instrument meeting Type I or Type II American National Standard Institute (ANSI) standards, consisting of a microphone, amplifier, filters, and indicating device, and designed to measure sound pressure levels accurately according to acceptable engineering practices.

(v) Sound Pressure Level: The level of Noise, normally expressed in decibels, as measured by a sound level meter.

(w) Tonal Sound: Any sound that is judged by a listener to have the characteristics of a pure tone, whine, hum or buzz.

SECTION 8.15.3A MOTOR VEHICLE DEFINITIONS

(a) Gross Vehicle Weight Rating (GVWR): The value specified by the manufacturer as the recommended maximum loaded weight of a single motor vehicle. In cases where trailers and tractors are separable, the gross combination weight rating, (GCWR), which is the value specified by the manufacturer as the recommended maximum loaded weight of the combination vehicle, shall be used.

(b) Motorcycle: Any unenclosed motor vehicle having two or three wheels in contact with the ground, including, but not limited to, motor scooters and minibikes.

(c) Motor Vehicle: Any vehicle which is propelled or drawn on land by a motor, such as, but not limited to, passenger cars, trucks, truck-trailers, semi-trailers, campers, go-carts, snowmobiles, dune buggies, or racing vehicles, but not including motorcycles.

SECTION 8.15.4 SOUND LEVEL EXAMPLES

The following are examples of approximate decibel readings of every day sounds:

0dBA	The faintest sound we can hear
30dBA	A typical library
45dBA	Typical office space
55dBA	Background Noise of a typical urban environment at night
65dBA	Background Noise of a typical urban environment during the day
70dBA	The sound of a car passing on the street
72dBA	The sound of two people speaking 4' apart
80dBA	Loud music played at home
90dBA	The sound of a truck passing on the street
100dBA	The sound of a rock band

(c) The Department of Public Works is exempt for Day and Night time operations for routine maintenance including but not limited to snow removal, street cleaning, litter control, and graffiti removal, etc. However, the DPW shall make every effort to reduce Noise in residential areas, particularly at night.

(d) Prior to purchasing new equipment, the Department of Public Works must consider equipment with the lowest Decibel rating for the performance standard required.

(e) Any proposed new or proposed upgrade for a park or recreation facility must incorporate appropriate and feasible Noise abatement measures during the design review process.

SECTION 8.15.6 PROHIBITIONS AND MEASUREMENT OF NOISE EMISSIONS

(a) Use Restrictions

1. The following devices shall not be operated except between the hours of 8 (eight) A.M. to 8(eight) P.M. Monday through Friday, and from 9 (nine) A.M. to 8(eight) P.M. on Saturdays, Sundays and holidays:

All electric motor and internal combustion engine devices employed in yard and garden maintenance and repair.

Turf maintenance equipment employed in the maintenance of golf courses, snow blowers and snow removal equipment are exempt from this section.

2. The following devices shall not be operated except between the hours of 7(seven) A.M. to 7(seven) P.M. Monday through Friday, and from 8:30(eight-thirty) A.M. to 6(six) P.M. on Saturdays, Sundays and holidays:

All devices employed in construction or demolition, subject to the maximum Noise Levels specified in Section 8.15.6b and 8.15.6c.

- (b) Vehicular Sources: Maximum Noise Levels Measurements shall be made at a distance of 50 (fifty) feet from the closest point of pass-by of a Noise source or 50(fifty) feet from a stationary vehicle.

MAXIMUM NOISE LEVEL dBA

(d) Fixed Plant Equipment

Any person shall operate such equipment in a manner not to exceed 10 dBA over the Background Noise and not greater than 5 dBA of Tonal sound over the Background Noise. However, if the fixed equipment is operated during night time hours, the night time Sound Pressure Level of the Fixed Plant Equipment must not exceed the average daytime Background Noise to compensate for night time operations, which is assumed to be 10dBA below daytime Background Noise. See Definitions Section 8.15.3(c).

Noise measurements shall be made at the boundary of the property in which the offending source is located, or at the boundary line of the complainant if the complainant is not a direct abutter.

(e) Electronic Devices and Musical Instruments

No person owning, leasing or controlling the operation of any electronic device shall willfully or negligently permit the establishment or condition of Noise Injury or Noise Pollution.

In public spaces, the existence of Noise Injury or Noise Pollution is to be judged to occur at any location a passerby might reasonably occupy. When the offending Noise source is located on private property, Noise Injury or Noise Pollution judgments shall be made at the property line within which the offending source is located.

Any and all Decibel Levels of sound caused by playing non-electrified musical instruments between 9 A.M. and 9 P.M. shall be exempt with exception of drums.

(f) Leaf Blowers

No person shall operate any portable Leaf Blower(s) which does not bear an affixed manufacturer's label or a label from the town indicating the model number of the Leaf Blower(s) and designating a Noise Level not in excess of sixty-seven(67)dBA when measured from a distance of fifty feet utilizing American National Standard Institute (ANSI) methodology. Any Leaf Blower(s) which bears such a manufacturer's label or town's label shall be presumed to comply with the approved ANSI Noise Level limit under this By-law. However, any Leaf Blowers must be operated as per the operating instructions provided by the manufacturer. Any modifications to the equipment or label are prohibited. However, any portable Leaf Blower(s) that have been modified or damaged, determined visually by anyone who has enforcement authority for this By-law, may be required to have the unit tested by the town as provided for in this section, even if the unit has an affixed manufacturer's ANSI or town label. Any portable Leaf Blower(s) must comply with the labeling provisions of this By-law by January 1, 2010. However, the owner's of any Leaf Blower(s) operating after January 1, 2010 without a manufacturer's ANSI label on the equipment, may obtain a label from the town by bringing the equipment to the town's municipal vehicle service center or such other facility designated by the Town for testing. The testing will be provided by the town's designated person for a nominal fee and by appointment only. Testing will be provided only between the months of May and October. If the equipment passes, a town label will be affixed to the equipment indicating Decibel Level.

Whether the equipment passes or not, the testing fee is non- refundable. Leaf blowers may be operated only during the hours specified in Section 8.15.6(a)(1). In the event that the label has been destroyed, the Town may replace the label after verifying the specifications listed in the owner's manual that it meets the requirements of this By-law.

(g) Animals

No person owning, keeping or controlling any animal shall willfully, negligently or through failure to provide necessary equipment or facilities or to take necessary precautions, permit the existence of Noise Pollution or Noise Injury.

(h) Additional Noise Sources

No person shall emit noise so as to cause a condition of Noise Pollution or Noise Injury.

(i) Alternative Measurement Procedures

If it is not possible to make a good Sound Pressure Level measurement at the distance as defined for specific equipment throughout Article 8.15, measurement may be made at an alternate distance and the level at the specified distance subsequently calculated. Calculations shall be made in accordance with established engineering procedures.

(j) Noise Level Exclusions

Any equipment that is used to satisfy local, state, federal health, welfare, environmental or safety codes shall be exempt from limitations for hours of operation (See Section 8.15.6(a)), except to the extent otherwise determined by the Board of Selectman. The following equipment shall also be exempt from Section 8.15.6(a) if necessary for emergency work performed by the Department of Public Works:

- jack hammers
- pavement breakers
- pile drivers
- rock drills
- or such other equipment as the DPW deems necessary,

providing that effective Noise barriers are used to shield nearby areas from excessive Noise.

(k) Motor Vehicle Alarms

The sounding of any horn or signaling device as a part of a burglar, fire or alarm system (alarm) for any motor vehicle, unless such alarm is automatically terminated within ten minutes of activation and is not sounded again at all within the next sixty minutes, is prohibited. Any motor vehicle located on a public or private way or on public or private property whose alarm has been or continues to sound in excess of ten minutes in any sixty minute cycle is hereby deemed to be a public nuisance subject to immediate abatement. Any police officer who observes that the alarm has or is sounding in excess of ten minutes in any sixty minute cycle, who, after making a reasonable effort, is unable to contact the owner of such motor vehicle or, after contact, such owner fails or refuses to shut-off or silence the alarm or authorize the police officer to have the alarm shut-off or

silenced, may abate the nuisance caused by the alarm by entering the vehicle to shut off or disconnect the power source of the alarm, by authorizing a member of the fire department or a tow company employee to enter such vehicle to shut off or disconnect the power source of the alarm and, if such efforts are unsuccessful, such officer is authorized to abate the nuisance by arranging for a tow company to tow the motor vehicle to an approved storage area or other place of safety. If a motor vehicle's alarm is shut off or disconnected from its power source and a police officer determines that the motor vehicle is not safe in its then location and condition, the police officer may arrange for a tow company to tow the motor vehicle to an approved storage area or other place of safety. The registered owner of the motor vehicle shall be responsible for all reasonable costs, charges and expenses incurred for the shutting-off or silencing of the alarm and all costs of the removal and storage of the motor vehicle. The provisions of Article 10.1 or Section 8.15.10 shall not apply to this paragraph (k).

(l) Tonal Sound Corrections

When a Tonal Sound is emitted by a Noise source, the limit on maximum Noise levels shall be 5 dB lower than specified.

SECTION 8.15.7 PERMITS FOR EXEMPTIONS FROM THIS BY-LAW

- (a) The Board of Selectmen, or designee, may give a special permit
 - (i) for any activity otherwise forbidden by the provisions of this By-law,
 - (ii) for an extension of time to comply with the provisions of this By-law and any abatement orders issued pursuant to it, and
 - (iii) when it can be demonstrated that bringing a source of Noise into compliance with the provisions of this By-law would create an undue hardship on a person or the community. A person seeking such a permit should make a written application to the Board of Selectmen, or designee. The Town will make all reasonable efforts to notify all direct abutters prior to the date of the Selectmen's meeting at which the issuance of a permit will be heard.

(b) The applications required by (a) shall be on appropriate forms available at the office of the Selectman. The Board of Selectmen, or designee, may issue guidelines defining the procedures to be followed in applying for a special permit. The following criteria and conditions shall be considered:

- (1) the cost of compliance will not cause the applicant excessive financial hardship;
- (2) additional Noise will not have an excessive impact on neighboring citizens.

(3) the permit may require portable acoustic barriers during Night.

(4) the guidelines shall include reasonable deadlines for compliance or extension of non-compliance.

(5) the number of days a person seeking a special permit shall have to make written application after receiving notification from the Town that (s)he is in violation of the provisions of this By-law.

(c) If the Board of Selectmen, or designee, finds that sufficient controversy exists regarding the application, a public hearing may be held. A person who claims that any special permit granted under (a) would have adverse effects may file a statement with the Board of Selectmen, or designee, to support this claim.

SECTION 8.15.8 HEARINGS ON APPLICATION FOR PERMITS FOR EXEMPTIONS

Resolution of controversy shall be based upon the information supplied by both sides in support of their individual claims and shall be in accordance with the procedures defined in the appropriate guidelines issued by the Board of Selectmen, or designee.

SECTION 8.15.9 PENALTIES

- (3) \$200.00 for the third offense;
- (4) \$200.00 for successive violations;
- plus (5) court costs for any enforcement action.

Each day of a continuing violation shall be considered a separate violation. Fines that remain unpaid after 30 days shall accrue interest at the statutory rate of interest.

(b) If a person in violation of the Noise Control By-law at a real property is an occupant but not the record owner of the real property, the Police, Health, or Building Departments may notify the owner of record of the real property of the violation. If a fine is issued in connection with excessive Noise at real property to someone other than the record owner of the property then the record owner of that property shall be notified. If there are any successive violations at least 14 days after the notification of the record owner but within

a one-year period, then the record owner of the property shall also be subject to the fine schedule delineated in Section (a).

(c) The Health, Building, Police and Public Works Departments shall have enforcement authority for the By-law. To report a violation, contact the appropriate department.

SECTION 8.15.10 SEVERABILITY

If any provisions of this article or the application of such provision to any person or circumstances shall be held invalid, the validity of the remainder of this article and the applicability of such provision to other persons or circumstances shall not be affected thereby.

The time period allowed shall depend upon the degree of hazard involved.
3. The Division will not allow any cross connection to remain unless it is protected by an approved backflow preventer for which a permit has been issued and which will be regularly tested to insure satisfactory operation.

(b) OWNER

1. The Owner shall be responsible for the elimination or protection of all cross connections on his premises.

3. Any backflow preventer which fails during a periodic test must be repaired or replaced by a licensed plumber. When repairs are necessary, upon completion of the repair, the device will be retested at the Owner's expense to insure proper operation. In other situations, a compliance date of not more than fourteen days after the test date will be established. The Owner is responsible for spare parts, repair tools, or a replacement device. Parallel installation of two devices is an effective means of the Owner insuring that uninterrupted water service remains during testings or repair of devices and is strongly recommended when the owner desires such continuity.

OBSTRUCTION OF THE MUNICIPAL STORM DRAIN SYSTEM - No person shall obstruct or interfere with the normal flow of stormwater into or out of the municipal storm drain system without prior approval from the DPW.

EXEMPTIONS

Discharge of flow resulting from fire fighting activities and DPW ice and snow control operations.

The following non-stormwater discharges or flows are considered exempt provided that the source is not a significant contributor of pollution to the municipal storm drain system:

8. Emergency Suspension of Storm Drainage System Access

The DPW may suspend municipal storm drain system access to any person or property without prior written notice when such suspension is necessary to stop an actual or threatened discharge of pollutants that presents imminent risk of harm to public health, safety, welfare or the environment. In the event any person fails to comply with an emergency suspension order, the Authorized Enforcement Agency

may take all reasonable steps to prevent or minimize harm to the public, health, safety, welfare or the environment.

9. Notification of Spills

Any spills or releases that require notification under local, state or federal law will be the responsibility of the person responsible for a facility or operation, or for an emergency response for a facility or operation (i.e., construction). In the event of a spill or release which may result in a discharge of pollutants or non-stormwater discharge to the municipal storm drain system, waters of the United States, and/or waters of the Commonwealth, the responsible parties, potentially responsible parties, or any person or persons managing a site or facility shall take all necessary steps to ensure containment, and remediate any municipal storm drains that have been impacted. However, if in the opinion of DPW, there is an excessive amount of pollutants in the stormdrain system, the DPW can require remediation by the responsible party regardless of other state or federal regulations. If the discharge of prohibited materials is from a commercial or industrial facility, the facility owner or operator of the facility shall take all necessary steps to ensure containment, clean-up of the release, retain on-site a written record of the discharge, and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

10. Enforcement

The DPW or an authorized agent of the DPW shall enforce Article 8.26, regulations, orders, violation notices, and enforcement orders, and may pursue all civil and criminal remedies for such violations.

- a) Civil Relief - If a person violates the provisions of this by-law, regulations, permit, notice, or order issued thereunder, the DPW may seek injunctive relief in a court of competent

jurisdiction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

b) Orders - The DPW or an authorized agent or the DPW may issue a written order to enforce the provisions of this by-law or the regulations thereunder, which may include:

a) elimination of illicit connections or discharges to the MS4;

b) performance of monitoring, analyses, and reporting;

c) that unlawful discharges, practices, or operations shall cease and desist;

d) and remediation of contamination in connection.

If the enforcing person determines that abatement or remediation of contaminations is required and is the responsibility of the property owner, the order shall set forth a deadline by which such abatement or remediation must be completed. Said order shall further advise that, should the violator or property owner fail to abate or perform remediation within the specified deadline, the Town of Brookline may, at its option, undertake such work, and expenses times three thereof shall be charged to the violator.

Within thirty (30) days after completing all measures necessary to abate the violation or to perform remediation, the violator and the property owner will be notified of the costs incurred by the Town of Brookline, including administrative costs. The violator or property owner may file a written protest objecting to the amount or basis of costs with The DPW within thirty (30) days of receipt of the notification of the costs incurred. If the amount due is not received by the expiration of the time in which to file a protest or within

thirty (30) days following a decision of the DPW affirming or reducing the costs, or from a final decision of a court of competent jurisdiction, the costs shall become a special assessment against the property owner and shall constitute a lien on the owners property for the amount of said costs. Interest shall begin to accrue on any unpaid costs at the statutory rate provided in G.L. Ch. 59, section 57 after the thirty-first day at which the costs first become due.

- c) PENALTY - Any person who violates any provision of this by-law, regulation, order or permit issued thereunder, shall be punished by a fine as set forth in Part X "Penalties and Enforcement" of the By-laws of the Town of Brookline.
- d) ENTRY TO PERFORM DUTIES UNDER THIS BY-LAW - To the extent permitted by state law, or if authorized by the owner or other party in control of the property, the DPW, its agents, officers, and employees may enter upon privately owned property for the purpose of performing their duties under Article 8.26 and may make or cause to be made such examinations, surveys or sampling as the DPW deems reasonably necessary
- e) APPEALS - The decision or orders of the DPW shall be final. Further relief shall be to a court of competent jurisdiction.
- f) REMEDIES NOT EXCLUSIVE - The remedies listed in Article 8.26 are not exclusive of any other remedies available under any applicable federal, state or local law.

11. Severability

The provisions Article 8.26 are hereby declared to be severable. If any provision, paragraph, sentence, or clause, of Article 8.26 or the application thereof to any person, establishment, or circumstances shall be held invalid, such

invalidity shall not affect the other provisions or application of Article 8.26.

shall adhere to the standards and specifications contained in the Massachusetts Erosion and Sediment Control Guidelines for Urban and Suburban Areas dated March 1997 or the latest edition thereof.

6. Review and Approval

An Erosion and Sediment Control review is triggered by a building permit application or other activity that falls within the jurisdiction described in paragraphs 3 and 4 above. Applicants are referred by the permit issuing agency to the Engineering Division of the Department of Public Works to conduct the Erosion and Sediment Control review. Activities that fall within the jurisdiction described in paragraphs 3 and 4 above that do not require a permit from any Town department are not exempt from this provision. In this situation, the applicant must seek Erosion and Sediment Control review directly from the Department of Public Works.

The Department of Public Works will review each Erosion and Sediment Control Plan to determine its conformance with the provisions of this section. Within 30 calendar days after receiving an application, the Department of Public Works shall, in writing:

- a. Approve the plan as submitted.
- b. Approve the plan subject to such reasonable conditions as may be necessary to secure substantially the objectives of this regulation, and issue the permit subject to these conditions; or
- c. Disapprove the plan, indicating the reason(s) and procedure for submitting a revised application and/or submission.

Failure of the Department of Public Works to act on an original or revised plan within 30 calendar days of receipt shall authorize the applicant to proceed in accordance with the plans as filed unless such time is extended by agreement between the applicant and the Department of Public Works. Pending preparation and approval of a revised plan, development activities shall be allowed to proceed in accordance with

conditions established by the Department of Public Works.

7. Inspections

The Commissioner of Public Works, or designated agent shall make inspections as hereinafter required and either shall approve that portion of the work completed or shall notify the owner or person responsible for the implementation of the plan wherein the work fails to comply with the Erosion and Sediment Control Plan as approved. Plans for grading, stripping, excavating, and filling work bearing the stamp of approval of the Department of Public Works shall be maintained at the site during the progress of the work. To obtain inspections, the permittee shall notify the Department of Public Works at least two working days before the following:

- a. Installation of sediment and erosion control measures¹
- b. Start of construction
- c. Completion of site clearing
- d. Completion of rough grading
- e. Close of the construction season
- f. Completion of final landscaping

The person responsible for implementation of the plan shall make regular inspections of all control measures in accordance with the inspection schedule outlined on the approved Erosion and Sediment Control Plan(s). The purpose of such inspections will be to determine the overall effectiveness of the control plan and the need for additional control measures. All inspections shall be documented in written form and submitted to the Department of Public Works at the time interval specified in the approved permit.

The Commissioner of Public Works or its designated agent shall enter the property of the applicant as deemed necessary to make regular inspections to ensure the validity of the reports filed as noted above.

8. Enforcement

- a. Suspension of Construction or Site Alteration Activity—In the event that the activity at a site violates the conditions as stated or shown on the approved Erosion and Sediment Control Plan in such a manner as to adversely affect the environment, public welfare/health and municipal facilities, then the Commissioner of Public Works may suspend work until the violation are corrected.

The Department of Public Works will review the Stormwater Management Plan to determine its conformance with the provisions of this section. For major projects, the Conservation Commission shall also review the Stormwater Management Plan. Within 30 days after receiving the plan, the Department of Public Works shall, in writing:

- a. Approve the plan as submitted.
- b. Approve the plan subject to such reasonable conditions as may be necessary to secure substantially the objectives of this regulation and approve the plan subject to these conditions.

- a. The name and address of the applicant
- b. The street address or description of the building, structure or land upon which the non compliance is occurring
- c. A statement specifying the nature of the non compliance
- d. A description of the remedial measures necessary to bring the activity into compliance with this by-law and a time schedule for the completion

Applicants receiving a notice of non compliance will be required to halt all construction activities. This "stop work order" will be in effect until the Department of Public Works confirms that the activity involved in the non compliance has been satisfactorily addressed. Occupancy permits, if applicable, will not be granted until the requirements of this by-law are complied with.

In the event that damages occur to the environment, natural resources, municipal facilities, and/or general health, safety and welfare of the public due to improper installation, operation or maintenance of

stormwater controls, a fine may be imposed by the Town in accordance with the appropriate sections of Part X "Penalties and Enforcement" in the By-Laws of the Town of Brookline.

 - g. POND - A water body as so defined in the Wetlands Protection Act and 310 CMR 10.04, except that a size threshold of 5,000 square feet shall apply.
 - h. RARE SPECIES - Without limitation, all vertebrate and invertebrate animal and plant species listed as endangered, threatened, or of special concern by the Massachusetts Division of Fisheries and Wildlife, regardless of whether the site in which they occur has been previously identified by the Division.

- i. RESOURCE AREAS - Land under lakes, ponds, rivers or streams; any bank, marsh, wet meadow, bog or swamp bordering on any lake, pond, river or stream; land subject to flooding bordering on any lake, pond, river or stream; isolated land subject to flooding; isolated vegetated wetlands; riverfront areas; and vernal pools.
- j. RESOURCE AREA VALUES - Without limitation, public or private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water quality, water pollution control, wildlife habitat, rare species habitat including rare plant species, and recreation values.
- k. RIVERFRONT AREA - Land as so defined in the Wetlands Protection Act and 310 CMR 10.58(2), as they may be amended.
- l. STREAM - An open body of running water, including brooks and creeks, which moves in a definite channel, in the ground, due to a hydraulic gradient and flows within, into, or out of an Area Subject to Protection under this bylaw. Such bodies of running water that are intermittent are streams, except for those that serve only to carry the immediate surface runoff from stormwater or snowmelt. A portion of a stream may flow through a culvert or beneath a bridge. Where a stream or river runs thorough a culvert more than 200 feet in length, the buffer zone or riverfront area stops at a perpendicular line at the upstream end of the culvert and resumes at the downstream end.
- m. VERNAL POOL - A confined basin depression that, at least in most years, holds water for a minimum of two continuous months during the spring and/or summer, and that is free of adult fish populations, as well as the area within 100 feet of the mean annual boundary of such a depression, and that is breeding habitat for amphibian species such as wood frog, spotted salamander, and fairy shrimp, regardless of whether the site has been certified by the Massachusetts Division

of Fisheries and Wildlife. A vernal pool does not have a buffer zone.

8.27.3 Jurisdiction

Except as permitted by the Conservation Commission or as provided in this bylaw, no person shall alter a resource area or a buffer zone. Resource areas shall be protected whether or not they border surface waters. Facilities constructed for the purpose of and designated as reservoirs shall be exempt from the jurisdiction of this bylaw.

8.27.4 Exemptions and Exceptions

The application and permit required by this bylaw shall not be required for the following activities:

- a. maintaining, repairing, or replacing, but not substantially changing or enlarging an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, telephone, telegraph, or other telecommunication services, provided that written notice has been given to the Commission prior to commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission;
- b. work performed for normal maintenance or improvement of land which is lawfully in agricultural use;
- c. for emergency projects necessary for the protection of the health and safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof; provided that advance notice, oral or written, has been given to the Commission prior to commencement of work or within 24 hours after commencement; provided that the Commission or its agent certifies the work as an emergency project; provided that the work is performed only for the time and place certified by the Commission for the limited purposes necessary to abate the emergency; and provided that within 21 days of commencement of an

emergency project a permit application shall be filed with the Commission for review as provided by this bylaw. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

- d. the application of herbicides as specifically set forth in 310 CMR 10.03(6) as may be amended.
- e. facilities constructed for the purpose of and designated as reservoirs shall be exempt from the jurisdiction of this bylaw.
- f. any bordering vegetated wetland, bank, land under water, land subject to flooding, or riverfront area created for the purpose of stormwater management shall not require the filing of a Notice of Intent or a Request for Determination of Applicability to maintain the stormwater management system, provided that the work is limited to the maintenance of the stormwater management system and that the area is not altered for other purposes.

Other than as stated in this section, the exceptions provided in the Wetlands Protection Act (G.L. c. 131, § 40) and Regulations (310 CMR 10.00) shall not apply under this bylaw.

8.27.5 Applications for Permits, Requests for Determination and Consultant Fee

- a. Written application shall be filed with the Commission to perform activities affecting resource areas protected by this bylaw. The permit application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the resource areas protected by this bylaw. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw. Projects shall not be segmented.
- b. The Commission in an appropriate case may accept as the permit application and plans under this bylaw the Notice of Intent or the Request for Determination of Applicability filed under the

Wetlands Protection Act (G.L. c. 131, § 40) and Regulations (310 CMR 10.00).

- c. Any person desiring to know whether or not a proposed activity or an area is subject to this bylaw may in writing request a determination from the Commission. Such a Request for Determination (RFD) shall include information and plans as are deemed necessary by the Commission. Such requirements shall be consistent with those required under the Wetlands Protection Act (G.L. c. 131, § 40) and Regulations (310 CMR 10.00).
- d. The Commission may request an Applicant, submitting an application for a permit, the project cost of which is estimated at \$2,000,000 or more to retain and pay the fees for a Consultant to prepare a report for the Commission's review. The project cost means the estimated, entire cost of the project including but not limited to design, building construction, site preparation, landscaping, and all site improvements.

8.27.6 Notice and Hearings

- a. Any person filing a permit application or a RFD with the Commission shall at the same time give written notice thereof, by certified mail with return receipt requested, or hand delivered with signatures, to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, and abutters to the abutters within 100 feet of the property line of the applicant, including any in another municipality or across a body of water. The notice to abutters shall have enclosed a copy of the permit application or request, with plans, or shall state where copies may be examined and obtained by abutters. An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission.
- b. When a person requesting a determination is other than the owner, the request, the notice of the hearing, and the determination itself shall be sent by the Commission to the owner as well as to the

person making the request.

- c. The Commission shall conduct a public hearing on any permit application or RFD, with written notice given at the expense of the applicant, five business days prior to the hearing, in a newspaper of general circulation in the municipality.
- d. The Commission shall commence the public hearing within 21 days from receipt of a completed permit application or RFD unless an extension is authorized in writing by the applicant.
- e. The Commission shall issue its permit or determination in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.
- f. The Commission in an appropriate case may combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act (G.L. c.131, § 40) and Regulations (310 CMR 10.00).
- g. The Commission shall have authority to continue the hearing to a certain date announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information from the applicant or others deemed necessary by the Commission in its discretion, or comments and recommendations of the boards and officials listed in §VII.

8.27.7 Coordination with Other Boards and Commissions

Any person filing a permit application or RFD with the Commission shall provide written notification thereof at the same time to the town engineer, and building commissioner. An affidavit of the person providing notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. The Commission shall not take final action until the Town Engineer, Zoning Administrator and Building Commissioner have had 14 days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any comments and

recommendations, and to respond to them at a hearing of the Commission, prior to final action.

8.27.8 Permits and Conditions

- a. If the Commission, after a public hearing, determines that the activities which are subject to the permit application or the land and water uses which will result therefrom are likely to have a significant individual or cumulative effect upon the resource area values protected by this bylaw, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions that the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions. The Commission shall take into account the cumulative adverse effects of loss, degradation, isolation, and replication of protected resource areas throughout the community and the watershed, resulting from past activities, permitted and exempt, and foreseeable future activities.
- b. The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the resource area values protected by this bylaw; and where no conditions are adequate to protect those values. Due consideration shall be given to any demonstrated hardship, financial or otherwise, on the applicant by reason of denial, as presented at the public hearing.
- c. Riverfront areas and buffer zones are presumed important to the protection of resource area values because activities undertaken in them have a high likelihood of adverse impact upon the wetlands or other resources, either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of the

activities. Such adverse impact from construction and use can include, without limitation, flooding, erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat. The Commission therefore may require that the applicant maintain a strip up to 50 feet wide of continuous, undisturbed vegetative cover within a riverfront area or buffer zone.

- d. In the review of riverfront areas and buffer zones of streams, no permit issued hereunder shall permit any activities unless the applicant, in addition to meeting the otherwise applicable requirements of this bylaw, has proved by a preponderance of the evidence that (1) there is no practicable alternative to the proposed project with less adverse effects, and that (2) such activities, including proposed mitigation measures, will have no significant adverse impact on the areas or values protected by this bylaw. The Commission shall regard as practicable an alternative which is reasonably available and capable of being done after taking into consideration the proposed property use, overall project purpose (e.g., residential, institutional, commercial, or industrial purpose), logistics, existing technology, costs of the alternatives, and overall project costs.
- e. To prevent wetlands loss, the Commission shall require applicants to avoid wetlands alteration wherever feasible; shall minimize wetlands alteration; and, where alteration is unavoidable, shall require full mitigation. The Commission may authorize or require replication of wetlands as a form of mitigation, but only with adequate security, professional design, and monitoring to assure success, because of the high likelihood of failure of replication.
- f. A permit shall expire three years from the date of issuance. Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any permit may be renewed once for an additional one year period, provided that a

request for a renewal is received in writing by the Commission prior to expiration. Notwithstanding the above, a permit may contain requirements which shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place, and shall apply to all owners of the land.

- g. For good cause the Commission may revoke or modify a permit or determination issued under this bylaw after notice to the holder of the permit or determination, notice to the public, abutters, and town boards, pursuant to §VI and §VII, and a public hearing.
- h. The Commission in an appropriate case may combine the permit or determination issued under this bylaw with the Order of Conditions or Determination of Applicability issued under the Wetlands Protection Act (G.L. c. 131, § 40) and Regulations (310 CMR 10.00).
- i. No work proposed in any permit application shall be undertaken until the permit issued by the Commission with respect to such work has been recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been recorded.

8.27.9 Regulations

After public notice and public hearing, the Commission shall promulgate regulations to effectuate the purposes of this bylaw and shall be effective when voted and filed with the town clerk. Failure by the Commission to promulgate such regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw.

8.27.10 Security

As part of a permit issued under this bylaw, in addition to any security required by any other municipal or state board, agency, or official, the Commission may require that the performance and

observance of the conditions imposed thereunder (including conditions requiring mitigation work) be secured wholly or in part by one or more of the methods described below:

- a. By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a Certificate of Compliance for work performed pursuant to the permit.
- b. By accepting a conservation restriction, easement, or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of this municipality whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed. This method shall be used only with the consent of the applicant.

8.27.11 Enforcement

- a. No person shall alter a resource area or a buffer zone, or cause, suffer, or allow alteration, or leave in place unauthorized fill, or otherwise fail to restore illegally altered land to its original condition, or fail to comply with a permit or an enforcement order issued pursuant to this bylaw.
- b. Only upon the filing of either an Request for Determination or a Permit under this bylaw the Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys, or sampling as the Commission deems necessary, subject to the constitutions and laws of the United States and the Commonwealth. In the absence of the filing of a Request for Determination or a Permit the Commission, its agents, officers and employees shall consult with Town Counsel prior to entering upon privately owned land for the purpose of determining compliance with this by-law or for any other purpose in furtherance of the objectives of this by-law.

- c. The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by violation notices, administrative orders, and civil court actions. Any person who violates provisions of this bylaw may be ordered to restore the property to its original condition and take other action deemed necessary to remedy such violations, or may be fined, or both.
- d. In the case of civil action, the Commission with the approval of the board of selectmen may request the town counsel to take legal action as necessary to enforce the terms of this by-law under civil law.
- e. Municipal boards and officers, including any police officer or other officer having police powers, shall have authority to assist the Commission in enforcement.
- f. Any person who violates any provision of this bylaw, or regulations, permits, or administrative orders issued thereunder, shall be punished by a fine of not more than \$300. Each day or portion thereof during which a violation continues, or unauthorized fill or other alteration remains in place, shall constitute a separate offense, and each provision of the bylaw, regulations, permits, or administrative orders violated shall constitute a separate offense.
- g. As an alternative to criminal prosecution in a specific case, the Commission may issue citations under the non-criminal disposition procedure set forth in G.L. c. 40, § 21D, which has been adopted by the Town in Article 10.3 of the general bylaws.

8.27.12 Burden of Proof

The applicant for a permit shall have the burden of proving by a preponderance of credible evidence that the work proposed in the permit application will not have unacceptable, significant, or cumulative effect upon the resource area values protected by this bylaw. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

8.27.13 Appeals

A decision of the Commission shall be reviewable in the Superior Court in accordance with G.L. c. 249, § 4. This in no way alters or amends an applicants rights to appeal as set forth in the Massachusetts Wetlands Protection Act M. G.L. c.131 § 40.

8.26.14 Relation to the Wetlands Protection Act

This bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule statutes, independent of the Wetlands Protection Act (G.L. c. 131, § 40) and Regulations (310 CMR 10.00) thereunder.

8.27.15 Severability

The invalidity of any section or provision of this bylaw shall not invalidate any other section or provision thereof, nor shall it invalidate any permit or determination that has been issued previously.

The waiver may be extended upon the showing of continued infeasibility as set forth above.

The Town of Brookline may additionally seek administrative costs and Response Costs associated with enforcement of this bylaw.

The provisions of this bylaw are enforceable without reference to the Brookline Noise Control Bylaw 8.15 and without reference to the fact that the police officer issuing a citation has not obtained a scientific noise measurement prior to issuing the citation. No such scientific noise measurement is required under this bylaw and the lack of a measurement shall not constitute a defense.

Sections 8.29.5 and 8.29.6 shall not limit the authority of police officers to make arrests for any criminal offense arising out of

conduct regulated by Sections 8.29.5 and 8.29.6, nor shall they limit the Town of Brookline or the Commonwealth of Massachusetts' ability to initiate and prosecute any criminal offense arising out of the same circumstances necessitating the application of Sections 8.29.5 and 8.29.6.

TOWN OF BROOKLINE

Article 8.30

FINGERPRINT-BASED CRIMINAL RECORD BACKGROUND CHECKS

ARTICLE 8.30

FINGERPRINT-BASED CRIMINAL RECORD BACKGROUND CHECKS

Section 8.30.1 Purpose/Authorization

In order to protect the health, safety, and welfare of the inhabitants of the Town of Brookline, and as authorized by chapter 256 of the Acts of 2010, this by-law shall require a) applicants for certain Town licenses permitting the engagement in specific occupational activities within the Town as enumerated in Section 8.30.2 below to submit to fingerprinting by the Brookline Police Department, b) the Police Department to conduct criminal record background checks based on such fingerprints, and c) the Town to consider the results of such background checks in determining whether or not to grant a license.

The Town authorizes the Massachusetts State Police, the Massachusetts Department of Criminal Justice Information Systems (DCJIS), and the Federal Bureau of Investigation (FBI) as may be applicable to conduct on the behalf of the Town and its Police Department fingerprint-based state and national criminal record background checks, including of FBI records, consistent with this by-law. The Town authorizes the Police Department to receive and utilize FBI records in connection with such background checks, consistent with this by-law.

Section 8.30.2 Applicant's Submission to Fingerprinting by the Brookline Police Department

Any applicant for a license to engage in any of the following occupational activities within the Town shall submit a full set of fingerprints taken by the Brookline Police Department within ten (10) days of the date of the application for a license for the purpose of conducting a state and national criminal record background check to determine the suitability of the applicant for the license:

- Liquor Licensee
- Manager or Alternate Manager of a Liquor Licensee
- Hawker and Peddler
- Hackney Carriage (Taxi) Operator
- Solicitors and Canvassers
- Dealers in Junk, Second-Hand Articles and Antiques
- Second-Hand Motor Vehicle Dealers
- Ice Cream Truck Vendor

At the time of fingerprinting, the Police Department shall notify the individuals fingerprinted that the fingerprints will be used to check the individual's FBI criminal history records.

Section 8.30.3 Police Department Processing of Fingerprint-Based Criminal Record Background Checks and Communication of Results

The Police Department shall transmit fingerprints it has obtained pursuant to Section 8.30.2 of this by-law to the Identification Section of the Massachusetts State Police, DCJIS, and/or the FBI as may be necessary for the purpose of conducting fingerprint-based state and national criminal records background checks of license applicants specified in Section 8.30.2.

As further detailed in the Town's policy applicable to Town licensing-related criminal record background checks, the Police Department shall provide the applicant with a copy of the results of his or her fingerprint-based criminal record background check and supply the applicant the opportunity to complete, or challenge the accuracy of, the information contained in it, including in the FBI identification record. The Police Department shall also supply applicants with information regarding the procedures for obtaining a change, correction, or updating of a criminal record, including a copy of 28 C.F.R. Part 16.34 pertaining to FBI identification records. In no event shall the Police Department render a suitability evaluation pursuant to the paragraph below until it has taken the steps detailed in this paragraph and otherwise complied with the Town's policy applicable to Town licensing-related criminal record background checks.

The Police Department shall communicate the results of fingerprint-based criminal record background checks to the applicable licensing authority within the Town. The Police Department shall in addition render to the licensing authority its evaluation of the applicant's suitability for the proposed occupational activity based upon the results of the criminal records background check and any other relevant information known to it. In rendering its evaluation, the Police Department shall consider all applicable laws, regulations and Town policies bearing on an applicant's suitability. The Police Department shall indicate whether the applicant has been convicted of, or is under pending indictment for, a crime that bears upon his or her suitability, or any felony or misdemeanor

that involved force or threat of force, controlled substances or a sex-related offense.

Section 8.30.4 Reliance on Results of Fingerprint-Based Criminal Record Background Checks

Licensing authorities of the Town shall utilize the results of fingerprint-based criminal record background checks for the sole purpose of determining the suitability of the subjects of the checks in connection with the license applications specified in Section 8.30.2. A Town licensing authority may deny an application for a license on the basis of the results of a fingerprint-based criminal record background check if it determines that the results of the check render the subject unsuitable for the proposed occupational activity. The licensing authority shall consider all applicable laws, regulations and Town policies bearing on an applicant's suitability in making this determination. The licensing authority shall not deny a license based on information in a criminal record unless the applicant has been afforded a reasonable time to correct or complete the record or has declined to do so.

Section 8.30.5 Compliance with Law, Regulation, and Town Policy
